

#### IN A NUTSHELL

The eZeLearn Platform offers you a flexible training delivery system with a built in learning Management System based on the emerging specifications for the development and presentation of technical documentation, including training programs.

The eZeLearn platform includes the ability to customise and re-use your data and complete training modules into customisable training programs.

The ability to display your training programs, branded to suit any number of affiliate or corporate sites provides the perception that the training is specific to the respective site.

Downloadable sales reports, customisable, generated Tax Invoices reduce the administrative effort associated with the enrolment of students.

Flexible assessment tools provide a means to administer assessments of trainees that are unique to the trainee without the need to prepare individual assessments. The results of all assessments are stored in the eZeLearn platform for review at anytime.

Training providers can enroll students 24 hours a day, 7 days a week through our standard payment or through their own customised shopping cart and payment gateway.

## Technology at work for you

### CONTENT MANAGEMENT

eZeLearn provides you with the ability to manage your own content through the administration console with the confidence that your content is secure from other users of the platform.

By agreement, we offer you a management service where we will manage the content for you based on input from your staff.

### CUSTOM STYLE SHEETS

Custom style sheets allow you to present your training in a style that compliments your brand and matches the style of your web site.

As a corporate customer you will have complete access to your own style sheet.

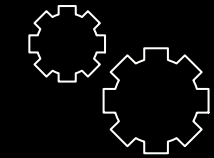

### RE-USEABLE CONTENT

The eZeLearn platform provides you with the flexibility to re-use data in multiple training modules and programs. Re-useable data includes text, videos, graphics and audio files.

Complete training modules are re-useable between training programs.

### SELF-PACED LEARNING

The eZeLearn platform provides you with the ability to deliver self-paced learning to your trainees yet allowing you the ability to review their progress at any time.

### CONTENT MANAGEMENT

The eZeLearn platform allows you to create, edit and manage your own training and coaching content in total security through personal logins..

### CLIENT REGISTRATION

Client registration can be through the built-in shopping cart or via direct import from a CSV file.

### SALES REPORTS

You have total control over your own sales reports. All sales reports are downloadable to CSV format for loading into any spreadsheeting program or database

### PAYMENT GATEWAY

You can choose to use the default shopping cart and have payments made through our payment gateway or have your own custom shopping cart linked to your own payment gateway and bank account.

- HELP DESK.

## A flexible solution for your training needs

### LEARNING EXERCISES

eZeLearn provides you with the ability include learning exercises within training modules. The learning exercises may be any one or a combination of the following:

- Single line response;
- Multi-line response;
- Tabular;
- Selected value;
- Scale rating; or
- Yes/No (True or False).

Training exercises may be set as either mandatory or optional to suit your needs.

### MULTI-CHOICE EXAMINATIONS

Flexible multi-choice examinations provide you with the means to administer knowledge assessments with instant feedback to trainees. Questions are randomly selected from a bank of available questions, each with randomly selected choices.

Using the eZeLearn examinations, trainees are highly unlikely to sit the same exam twice not can questions to answers be passed on between trainees.

Couple multi-choice exams with long and short answer questions plus assignments and you have a flexible examination system.

### GLOBAL DELIVERY

The eZeLearn concept allows you to deliver training through multiple websites, internal or external anywhere around the globe with secure login for all trainees. It doesn't matter where in the world they may be at anytime; they will be able to access their training modules/programs.

Your training managers are able to log in at anytime, from anywhere to review the progress of individual trainees and provide coaching responses to your Trainee's learning exercises.

### HELP DESK

The built in help Desk allows your trainees to lodge help tickets at anytime when difficulties arise.

### CONTENT DEVELOPMENT

If you would like assistance in developing your content please talk to your eZeLearn Consultant and we will discuss how we may be able to assist you to develop your content through our Associates.
